

Lacy Somethings

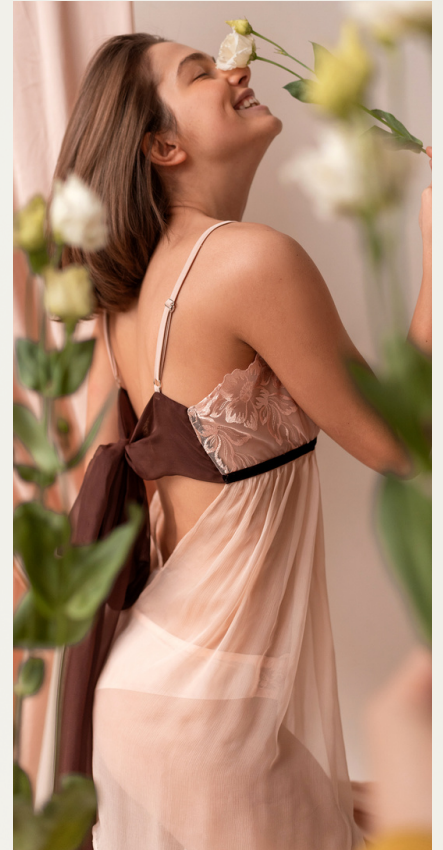

Lacy Somethings is a dream of stunning and ethically produced lingerie come true.

It took several years of experience to finally devise a formula for perfect underwear: handcraft + finest natural fabrics + exclusive designs + painstaking quality testing.

We see making lingerie as our vocation, and we approach it conscientiously. We take responsibility in each step of production, including paying deservedly high wages to the craftspeople, providing excellent working conditions and controlling the results.

Our two mutually supporting aims are, on the one hand, to give you a sense of the strength and beauty of your own body and, on the other, to support gifted designers.

Lingerie design is an art. Before they appear on the website all our “artists” go through a rigorous selection process. These are people who love what they do and put their inspiration, time and talent into each of their artworks. Most importantly they are inspired by you and want you to fall in love with yourself every time you put on items from their collections.

Lacy Somethings lingerie offers a unique experience for your body: sumptuous silk tenderly touching your skin, a diaphanous web of fine lace gently wrapping your body. We hope that these subtle sensations will become daily reminders of your unique beauty.

Design

Three main factors are at the heart of the development of each design - aesthetics, production quality and comfort.

Our designs are tailored to the needs of different clients. Among the products there are classic solutions, trendy ones, models developed for specific needs.

Our products include items for every day, suitable for special occasions, such as weddings or romantic nights, plus size models, shapewear. All production is located in Russia.

Materials

We pay special attention to fabrics and accessories selection. The main materials are natural silk, lace, cotton, elastic and non-elastic tulle.

We use sewing accessories from such companies as Lauma, ARTA F and other European brands.

Our principle is that each fabric and detail must match the functionality of each specific product.

Quality control

We place a strong emphasis on the quality of our products. Quality control begins with the selection of fabrics and accessories. Each finished item is individually tested before it reaches the client.

The production of each item is closely monitored. We have no unfinished seams or loose threads.

Each model is handcrafted in a limited edition. This allows to achieve a rare level of quality that is not available for mass-produced products.

It is our strong belief that every woman deserves a special treatment when it comes to her body. We are currently working on a collection that will expand our size chart. We are about to offer larger sizes than what appears today in handmade lingerie stores.

We pay strong attention to the development of new sewing patterns for each product, rather than mindlessly scaling them. As a result, the collection will as much as possible take into account the specific needs of different body types. It will be ready by the end of 2021.
